PROXY STATEMENT

INFORMATION CONCERNING SOLICITATION AND VOTING

GENERAL

The enclosed proxy is solicited on behalf of the board of directors of 8x8, Inc. (the "Company") for use at the annual meeting of stockholders to be held July 15, 1999 at 2:00 p.m., local time, or at any adjournment thereof, for the purposes set forth herein. The annual meeting of stockholders will be held at the offices of the Company at 2445 Mission College Boulevard, Santa Clara, California 95054. The telephone number of the Company's offices is (408) 727-1885.

These proxy solicitation materials and the Company's annual report to stockholders for the year ended March 31, 1999 (the Company's fiscal 1999), including financial statements, were, or shall be, mailed on or about June 15, 1999, to all stockholders entitled to vote at the annual meeting.

RECORD DATE AND VOTING SECURITIES

Stockholders of record at the close of business on May 17, 1999 (the "Record Date"), are entitled to notice of and to vote at the annual meeting. At this record date, 15,437,293 shares of the Company's common stock were issued and outstanding.

REVOCABILITY OF PROXIES

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to the Secretary of the Company at or before the taking of the vote at the annual meeting a written notice of revocation or a duly executed proxy bearing a later date or by attending the annual meeting and voting in person.

VOTING AND SOLICITATION

Each stockholder is entitled to one vote for each share of the Company's common stock on all matters presented at the annual meeting. Stockholders do not have the right to cumulate their votes in the election of directors.

Shares of the Company's common stock represented by properly executed proxies will, unless such proxies have been previously revoked, be voted in accordance with the instructions indicated thereon. In the absence of specific instructions to the contrary, properly executed proxies will be voted: (i) FOR the election of each of the Company's nominees for director and (ii) FOR ratification of the appointment of PricewaterhouseCoopers LLP as independent accountants for the Company for the period ending March 31, 2000. No business other than that set forth in the accompanying Notice of Annual Meeting of Stockholders is expected to come before the annual meeting. Should any other matter requiring a vote of stockholders properly arise, the persons named in the enclosed form of proxy will vote such proxy in accordance with the recommendation of the board of directors.

The Company will bear the cost of soliciting proxies. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners. Solicitation of proxies by mail may be supplemented by telephone, telegram, facsimile or personal solicitation by directors, officers or regular employees of the Company. No additional compensation will be paid to such persons for such services.

QUORUM; ABSTENTIONS; BROKER NON-VOTES

The required quorum for the transaction of business at the annual meeting is a majority of the votes eligible to be cast by holders of shares of the Company's common stock issued and outstanding on the record date, May 17, 1999. Shares that are voted "FOR," "AGAINST," "WITHHELD" or "ABSTAIN" are treated as being present at the meeting for purposes of establishing a quorum and are also treated as shares entitled to vote at the annual meeting with respect to such matter.

Abstentions shall be counted for purposes of determining both (i) the presence or absence of a quorum for the transaction of business and (ii) the total number of shares entitled to vote with respect to a proposal (other than the election of directors). Accordingly, abstentions will have the same effect as a vote against the proposal.

In instances where brokers are prohibited from exercising discretionary authority for beneficial holders who have not returned a proxy (so-called "broker non-votes"), those shares will be counted for purposes of determining the presence or absence of a quorum for the transaction of business, but will not be counted for purposes of determining the number of shares entitled to vote. Thus, a broker non-vote will not affect the outcome of the voting on a proposal.

DEADLINE FOR RECEIPT OF STOCKHOLDER PROPOSALS

Proposals of stockholders of the Company which are intended to be presented by such stockholders at the Company's 2000 annual meeting of stockholders must be received by the Company no later than January 20, 2000 in order that they may be considered for inclusion in the proxy statement and form of proxy relating to that meeting.

(1) The Company granted options representing 3,219,175 shares to employees during fiscal 1999.

(2) Potential gains are net of the exercise price but before taxes associated with the exercise. The 5% and 10% assumed annual rates of compounded stock appreciation are mandated by the rules of the Securities and Exchange Commission and do not represent the Company's estimate or projection of the future Company common stock price. Actual gains, if any, on stock option exercises are dependent on the future financial performance of the Company, overall market conditions and the option holders' continued employment through the vesting period.

(3) The options vest at a rate of 1/48 of the shares at the end of each month, subject to continued service as an employee, consultant or director, except that options may not be exercised prior to September 21, 1999. The term of each option is ten years. The exercise price of each option granted equals the fair market value of the common stock of the Company on the date of grant.

(4) The shares vested 50% on October 21, 1997 and 50% on January 20, 1998 based upon the achievement of certain milestones.

(5) Shares shall vest in full on September 21, 2002. The shares shall vest immediately if certain milestones are met.

(6) The options vest at a rate of 1/48 of the shares at the end of each month, subject to continued service as an employee, consultant or director. The term of each option is ten years. The exercise price of each option granted equals the fair market value of the common stock of the Company on the date of grant.

The following table provides information with respect to option exercises during the year ended March 31, 1999 and the value of stock options held as of March 31, 1999 by each of the Named Executive Officers:

TEN YEAR OPTION REPRICINGS

The following table identifies stock options to purchase shares of the Company's common stock held by all officers of the Company, including the Named Officers, which were granted at a lower exercise price during the last ten fiscal years, including the repricings on September 2, 1998 and September 21, 1998 by replacement of certain options previously granted to such officers during fiscal 1999. The Compensation Committee Report on Repricing of Options on page 13 sets forth the basis for these exchanges.

EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT AND CHANGE-IN-CONTROL ARRANGEMENTS

The Company currently has no employment contract in effect with any of its officers. In the event an individual or corporate entity and any related parties cumulatively acquire at least 50% of the Company's fully diluted stock, all stock options or stock subject to repurchase by the Company held by officers under any stock option plan shall vest immediately without regard to the term of the option. In addition, in such an event, each officer shall be entitled to one

(1) year severance pay and continuing medical benefits for life after leaving the Company, provided that such medical benefits shall cease should such officer accept employment with a competing company.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The compensation committee of the board of directors currently consists of Bernd Girod and William P. Tai. Neither individual was at any time since the formation of the Company an officer or employee of the Company. No executive officer of the Company serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Company's board of directors or compensation committee. The Company's employee directors, which included Messrs. Barraclough, Martin, McNiffe, Voois and Wang during fiscal 1999, all participated in deliberations of the Company's board of directors concerning executive officer compensation.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In July 1996, certain officers of the Company entered into partial recourse promissory notes in connection with the purchase of the Company's common stock (at a price of \$0.50 per share) through the exercise of stock options. The following summarizes the amount outstanding as of March 31, 1999 under such promissory notes entered into by these current Company officers: Ms. Abbott, \$15,752; Mr. Martin, \$94,315; Mr. McNiffe, \$103,723; Mr. Noonan, \$73,735; and Dr. Wang, \$19,697. These amounts also represent the greatest note amounts outstanding during fiscal 1999, except in the case of Dr. Wang and Ms. Abbott, whose amounts outstanding equaled as much as \$42,482 and \$68,805, respectively during fiscal 1999. Each of these promissory notes have an interest rate of 6.4% per year, and are secured by the shares of the Company's common stock held by such respective officers. Principal and interest on these promissory notes are due and payable in June 2001 or 30 days after termination of employment, if earlier.

The Company purchased \$955,655 and \$3.8 million of components from Sanyo Semiconductor Corporation and an affiliate during fiscal 1999 and 1998, respectively. Mr. Goto, a director of the Company, is the President and Chief Executive Officer of Sanyo Semiconductor Corporation, which is a stockholder of the Company.

The Company believes that all of the transactions set forth above were made on terms no less favorable to the Company than could have been otherwise obtained from unaffiliated third parties. All future transactions, including loans (if any), between the Company and its officers, directors and principal stockholders and their affiliates will be approved by a majority of the board of directors, including a majority of the independent and disinterested outside directors of the board of directors, and will be on terms no less favorable to the Company than could have been obtained from unaffiliated third parties.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The following is the report of the compensation committee of the board of directors describing compensation policies and rationales applicable to the Company's executive officers with respect to compensation paid to such executive officers for fiscal 1999. The compensation committee makes recommendations to the board concerning the compensation for the Company's executive officers. The board of directors is responsible for reviewing and approving the Company's compensation policies and the compensation paid to executive officers, based on part upon recommendations of the compensation committee.

Compensation Philosophy

The general philosophy of the Company's compensation program is to offer executive officers competitive compensation based both on the Company's performance and on the individual's contribution and performance. The Company's compensation policies are intended to motivate, reward and retain highly qualified executives for long-term strategic management and the enhancement of stockholder value, to support a performance-oriented environment that rewards achievement of specific internal Company goals and to attract and retain executives whose abilities are critical to the long-term success and competitiveness of the Company.

There are three main components in the Company's executive compensation program: base salary, incentive bonus and stock incentives.

Base Salary

The salaries of the executive officers, including the Chief Executive Officer, are determined annually by the compensation committee and the board of directors with reference to surveys of salaries paid to executives with similar responsibilities at comparable companies, generally in the high technology industry and often within the Company's geographic area. The peer group for each executive officer is composed of executives whose responsibilities are similar in scope and content. The Company seeks to set executive compensation levels that are competitive with the average levels of peer group compensation.

Incentive Bonus

Annual incentive bonuses for executive officers are intended to reflect the Committee's belief that a significant portion of the annual compensation of each executive officer should be contingent upon the performance of the Company, as well as the individual contribution of each officer. The Company's profit sharing plan provides for additional compensation to all employees of the Company equal to up to 15% of the Company's quarterly net income. Of this amount, one third is shared by all employees, one third is shared among employees within certain business units, and one third is shared by officers. Additionally, the plan provides for payment of certain discretionary bonuses based on criteria established by the Company's board of directors and management. During fiscal 1999, these discretionary bonuses primarily related to achievement of engineering goals, product introduction goals and sales goals. In addition, certain sales commissions are also paid to employees, including officers.

Stock Incentives

The Company utilizes stock options as long term incentives to reward and retain executive officers. The compensation committee believes that this practice links management interests with stockholder interests and motivates executive officers to make long-term decisions that are in the best interests of the Company. The committee also believes that executive officers and other key employees should own a significant percentage of the Company's stock. Generally, stock options vest over four years after the grant date and optionees must be employed by the Company at the time of vesting in order to exercise the options. The vesting of certain options accelerates in relation to the achievement of specified business goals to which the optionee is expected to significantly contribute.

The committee believes that stock option grants provide an incentive that focuses the executives' attention on the Company from the perspective of an owner with an equity stake in the business. Because options are typically granted with an exercise price equal to the fair market value of the Company's common stock on the date of grant, the Company's stock options are tied to the future performance of the Company's common stock and will provide value to the recipient only when the price of the Company's stock increases above the exercise price, that is, only to the extent that stockholders as a whole have benefited.

Compensation of the Chief Executive Officer

Dr. Voois has been the Company's Chief Executive Officer since January 1998. His annual base salary was \$190,000 in fiscal 1999. During fiscal 1999, Dr. Voois received a bonus of \$667.00. This bonus relates to achievement of profitability in the fourth quarter of fiscal 1998, which was paid in fiscal 1999. In fiscal 1999, Dr. Voois was granted options to purchase 300,000 shares of the Company's common stock. These options include grants of options for 225,000 shares issued pursuant to a repricing of options on September 21, 1998 accomplished through the cancellation of then existing options and the issuance of new options. In September 1998, Dr. Voois was granted an option to purchase 30,000 shares of the Company's common stock at a price of \$3.13 per share, which represented the fair market value of the Company's stock on the date of grant. This grant will vest on September 21, 2002, provided however, that all shares shall vest immediately if a company named by the Board of Directors makes an investment by purchasing shares of the Company in excess of 10% of the Company's outstanding shares prior to April 23, 1999. In October 1998, Dr. Voois was granted an option to purchase 25,000 shares of the Company's common stock at a price of \$2.44 per share, which represented the fair market value of the Company's stock on the date of grant. This grant will vest monthly for 48 months.

REPORT ON REPRICING OF OPTIONS

On August 31, 1998, the board of directors of the Company voted to reprice options granted under the 1992 and 1996 Stock Option Plans with exercise prices in excess of the fair market value of the Company's common stock that are held by current employees and consultants of the Company who are not directors of the Company. A total of 1,565,175 options were cancelled and regranted at \$2.82 per share, the closing price of the common stock on September 2, 1998.

On September 21, 1998, the board of directors of the Company voted to reprice options granted under the 1992 and 1996 Stock Option Plans with exercise prices in excess of the fair market value of the Company's common stock that are held by current directors who are also employees of the Company. A total of 540,000 options were cancelled and regranted at \$3.00 per share, the closing price of the common stock on September 21, 1998.

The Company believes that given the disparity in August 1998 between the trading price of its common stock and the exercise price of those options awarded employees as incentive compensation following the public offering process in July 1997, the repricing was desirable in order to incentivize the Company's employees and employee directors to continue to work towards the future growth of the Company and to retain key personnel. In exchange for the reduction in the exercise price, each holder of a repriced option agreed not to exercise the repriced option for a period of twelve months following the date of the repricing.
