## INFORMATION CONCERNING SOLICITATION AND VOTING

## GENERAL

The enclosed proxy is solicited on behalf of the board of directors of 8x8, Inc. (the "Company") for use at the annual meeting of stockholders to be held June 15, 1998 at 2:00 p.m., local time, or at any adjournment thereof, for the purposes set forth herein. The annual meeting of stockholders will be held at the offices of the Company at 2445 Mission College Boulevard, Santa Clara, California 95054. The telephone number of the Company's offices is (408) 727-1885.

These proxy solicitation materials and the Company's annual report to stockholders for the year ended March 31, 1998 (the Company's fiscal 1998), including financial statements, were, or shall be, mailed on or about May 20, 1998 to all stockholders entitled to vote at the meeting.

## RECORD DATE AND VOTING SECURITIES

Stockholders of record at the close of business on April 16, 1998 are entitled to notice of and to vote at the meeting. At this record date, 15,293,614 shares of the Company's common stock, were issued and outstanding.

## REVOCABILITY OF PROXIES

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to the Secretary of the Company a written notice of revocation or a duly executed proxy bearing a later date or by attending the meeting and voting in person.

## VOTING AND SOLICITATION

Each stockholder is entitled to one vote for each share of the Company's common stock on all matters presented at the annual meeting of stockholders. Stockholders do not have the right to cumulative voting in the election of directors.

The Company will bear the cost of soliciting proxies. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners. Solicitation of proxies by mail may be supplemented by telephone, telegram, facsimile or personal solicitation by directors, officers or regular employees of the Company. No additional compensation will be paid to such persons for such services.

## QUORUM; ABSTENTIONS; BROKER NON-VOTES

The required quorum for the transaction of business at the annual meeting of stockholders is a majority of the votes eligible to be cast by holders of shares of the Company's common stock issued and outstanding on the record date, April 16, 1998. Shares that are voted "FOR," "AGAINST," "WITHHELD" or "ABSTAIN" are treated as being present at the meeting for purposes of establishing a quorum and are also treated as shares entitled to vote at the annual meeting with respect to such matter.

Abstentions shall be counted for purposes of determining both (i) the presence or absence of a quorum for the transaction of business and (ii) the total number of shares entitled to vote with respect to a proposal (other than the election of directors). Accordingly, abstentions will have the same effect as a vote against the proposal.

In instances where brokers are prohibited from exercising discretionary authority for beneficial holders who have not returned a proxy (so-called "broker non-votes"), those shares will be counted for purposes of

determining the presence or absence of a quorum for the transaction of business, but will not be counted for purposes of determining the number of shares entitled to vote. Thus, a broker non-vote will not affect the outcome of the voting on a proposal.

#### DEADLINE FOR RECEIPT OF STOCKHOLDER PROPOSALS

Proposals of stockholders of the Company which are intended to be presented by such stockholders at the Company's 1999 annual meeting of stockholders must be received by the Company no later than January 20, 1999 in order that they may be considered for inclusion in the proxy statement and form of proxy relating to that meeting.

The 5% and 10% assumed annual rates of compounded stock appreciation are mandated by the rules of the Securities and Exchange Commission and do not represent the Company's estimate or projection of the future Company common stock price. Actual gains, if any, on stock option exercises are dependent on the future financial performance of the Company, overall market conditions and the option holders' continued employment through the vesting period.

(2) The options vest at a rate of 1/48th of the shares at the end of each month, subject to continued service as an employee, consultant or director. The term of each option is ten years. The exercise price of each option granted equals the fair market value of the common stock of the Company on the date of grant.

## COMPENSATION PLANS

## Stock Option Plans

The Company's stock option plans provide for the grant of incentive stock options to employees and nonstatutory stock options to employees and consultants. These plans are administered by the Company's board of directors or a committee of the board, which selects the options, determines the numbers of shares subject to each grant and determines the exercise price of each option. As of April 1, 1998 (after giving effect to the increase of shares issuable at the start of fiscal 1999 described below), the Company's stock option plans authorized the issuance of up to 6,614,605 shares of Company common stock. Of that amount and as of that date, 2,869,152 shares had been issued under the plans, options for 2,859,864 shares were outstanding, and 885,589 shares remained available for future grants. The number of shares issuable under one of the Company's stock option plans increases annually at the start of each fiscal year through fiscal 2006 in an amount equal to 5% of the Company's common stock issued and outstanding. This provision resulted in an increase of 764,680 of shares issuable under the Company's stock option plans at the start of fiscal 1999.

In the event of a merger of the Company with or into another corporation, the Company's stock option plans requires that each outstanding option be assumed or an equivalent option substituted by such successor corporation or a parent or subsidiary of such successor corporation. If the successor corporation refuses to assume or substitute for the options, the optionee will have the right to exercise the option as to all or a portion of the stock subject thereto, including shares which would not otherwise be exercisable.

## Employee Stock Purchase Plan

As of April 1, 1998 (after giving effect to the increase of shares issuable at the start of fiscal 1999 described below), an aggregate of 570,560 shares of Company common stock are reserved for issuance under the Company's Employee Stock Purchase Plan. Of that amount and as of that date, 70,560 shares have been issued and 500,000 shares remain available for issuance. At the start of each fiscal year, the number of shares of common stock subject to this plan increases so that 500,000 shares then shall be available for issuance. This plan permits employees to purchase common stock through payroll deductions, which may not exceed 10% of an employee's base compensation, including commissions but exclusive of bonuses and overtime. Shares are purchases at a price equal to 85% of the fair market value of Company common stock at the beginning of each two year offering period or the end of a six month purchase period, whichever is lower. In the event of a merger of the Company with or into another corporation, or the sale of all or substantially all of the assets of the Company, this plan provides for the termination of the pending six month purchase period prior to such event.

## Profit Sharing Plan

The Company's profit sharing plan provides for additional compensation to all employees of the Company equal to up to 15% of the Company's quarterly net income. Additionally, the plan provides for payment of certain discretionary bonuses based on criteria established by Company's board of directors and management.

## EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT AND CHANGE-IN-CONTROL ARRANGEMENTS

The Company currently has no employment contract in effect with any of its officers. In the event of an individual or corporate entity and any related parties cumulatively acquiring at least 35% of the Company's fully diluted stock, all stock options or stock subject to repurchase by the Company held by officers under any stock option plan shall vest immediately without regard to the term of the option. In addition, in such an event, each officer shall be entitled to one (1) year severance pay and continuing medical benefits for life after leaving the Company, provided that such medical benefits shall cease should such officer accept employment with a competing company.

## COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The compensation committee of the board of directors currently consists of Bernd Girod, Akifumi Goto and Paul Voois and consisted of Richard M. Chang, Akifumi Goto and Joe Parkinson at the time of the one compensation committee meeting in fiscal 1998. Of these individuals, Paul Voois and Joe Parkinson served as officers of the Company during fiscal 1997 and before. No other of these individuals were at any time since the formation of the Company an officer or employee of the Company. No executive officer of the Company serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Company's board of directors or compensation committee. The Company's employee directors, which included Keith R. Barraclough, Bryan R. Martin, Chris McNiffe, Joe Parkinson, Paul Voois and Samuel Wang during fiscal 1998, all participated in deliberations of the Company's board of directors concerning executive officer compensation.

## CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In July 1996, certain officers of the Company entered into partial recourse promissory notes in connection with the purchase of the Company's common stock (at a price of \$0.50 per share) through the exercise of stock options. The following summarizes the amount outstanding as of March 31, 1998 under such promissory notes entered into by these current Company officers: Sandra L. Abbott, \$68,054; David Harper, \$68,054; Bryan R. Martin, \$89,182; Chris McNiffe, \$98,078; Michael Noonan, \$69,722; and Samuel Wang, \$40,336. These amounts also represent the greatest note amounts outstanding during fiscal 1998, except in the case of Samuel Wang, whose amount outstanding equaled as much as \$85,807 during fiscal 1998. Each of these promissory notes have an interest rate of 6.4% per year, and are secured by the shares of the Company's common stock held by such respective officers. Principal and interest on these promissory notes are due and payable in June 2001 or 30 days after termination of employment, if earlier.

During fiscal 1998, the Company's product revenues included \$106,000 in sales to Sanyo Semiconductor Corporation. Additionally, the Company purchased \$3.8 million and \$408,000 of components from Sanyo Semiconductor Corporation and an affiliate during fiscal 1998 and 1997, respectively. Akifumi Goto, a director of the Company, is the President and Chief Executive Officer of Sanyo Semiconductor Corporation, which is a stockholder of the Company.

The Company believes that all of the transactions set forth above were made on terms no less favorable to the Company than could have been otherwise obtained from unaffiliated third parties. All future transactions, including loans (if any), between the Company and its officers, directors and principal stockholders and their affiliates will be approved by a majority of the board of directors, including a majority of the independent and disinterested outside directors of the board of directors, and will be on terms no less favorable to the Company than could have been obtained from unaffiliated third parties.

## REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The following is the report of the compensation committee of the Company's board of directors describing compensation policies and rationales applicable to the Company's executive officers with respect to compensation paid to such executive officers for fiscal 1998. The compensation committee makes recommendations to the board concerning the compensation for the Company's executive officers. The board of directors is responsible for reviewing and approving the Company's compensation policies and the compensation paid to executive officers, based on part upon recommendations of the compensation committee.

## Compensation Philosophy

The general philosophy of the Company's compensation program is to offer executive officers competitive compensation based both on the Company's performance and on the individual's contribution and performance. The Company's compensation policies are intended to motivate, reward and retain highly qualified executives for long-term strategic management and the enhancement of stockholder value, to support a performance-oriented environment that rewards achievement of specific internal Company goals and to attract

and retain executives whose abilities are critical to the long-term success and competitiveness of the Company.

There are three main components in the Company's executive compensation program: base salary, incentive bonus and stock incentives.

#### Base Salary

The salaries of the executive officers, including the Chief Executive Officer, are determined annually by the compensation committee and the board of directors with reference to surveys of salaries paid to executives with similar responsibilities at comparable companies, generally in the high technology industry and often within the Company's geographic area. The peer group for each executive officer is composed of executives whose responsibilities are similar in scope and content. The Company seeks to set executive compensation levels that are competitive with the average levels of peer group compensation.

#### Incentive Bonus

Annual incentive bonuses for executive officers are intended to reflect the Committee's belief that a significant portion of the annual compensation of each executive officer should be contingent upon the performance of the Company, as well as the individual contribution of each officer. The Company's profit sharing plan provides for additional compensation to all employees of the Company equal to up to 15% of the Company's quarterly net income. Of this amount, one third is shared by all employees, one third is shared among employees within certain business units, and one third is shared by officers. Additionally, the plan provides for payment of certain discretionary bonuses based on criteria established by the Company's board of directors and management. During fiscal 1998, these discretionary bonuses primarily related to achievement of engineering goals, product introduction goals and sales goals. In addition, certain sales commissions are also paid to employees, including officers.

The compensation paid to executive officers in fiscal 1998 relates to financial as well as non-financial achievements. Financial achievements for the Company in fiscal 1998 include record revenues of \$49.8 million and a net profit of \$3.7 million. Non-financial achievements include those relating to the introduction and sale of the Company's ViaTV videophone products, the consummation of various licensing transactions and the completion of the Company's initial public offering. During fiscal 1998, the Company introduced a number of its ViaTV videophone products, including the VC105, the VC50 and the VC55. It also built direct sales, retail, OEM and distribution sales channels for the ViaTV products. Licensing deals consummated in fiscal 1998 include the licensing of ViaTV technology to U.S. Robotics (now 3Com). The contributions of Chris Peters, Vice President, Sales, to this license transaction resulted in a substantial bonus to him.

#### Stock Incentives

The Company utilizes stock options as long term incentives to reward and retain executive officers. The compensation committee believes that this practice links management interests with stockholder interests and motivates executive officers to make long-term decisions that are in the best interests of the Company. The committee also believes that executive officers and other key employees should own a significant percentage of the Company's stock. Generally, stock options vest over four years after the grant date and optionees must be employed by the Company at the time of vesting in order to exercise the options. The vesting of certain options accelerates in relation to the achievement of specified business goals to which the optionee is expected to significantly contribute.

The committee believes that stock option grants provide an incentive that focuses the executives' attention on the Company from the perspective of an owner with an equity stake in the business. Because options are typically granted with an exercise price equal to the fair market value of the Company's common stock on the date of grant, the Company's stock options are tied to the future performance of the Company's common stock and will provide value to the recipient only when the price of the Company's stock increases above the exercise price, that is, only to the extent that stockholders as a whole have benefited.

## Compensation of the Chief Executive Officer

Joe Parkinson served as the Company's Chief Executive Officer from June 1995 to January 1998. His annual base salary was increased from \$150,000 to \$200,000 effective October 20, 1997. Mr. Parkinson received a bonus of \$56,416 during fiscal 1998, which consisted of profit sharing and a bonus for financial performance. On April 21, 1997, the Company's board of directors amended the vesting of an option for 250,000 shares held Mr. Parkinson to provide him with an incentive to cause the Company's initial public offering to occur before the end of 1997. This amendment provided for accelerated vesting in full upon an initial public offering of the Company's common stock occurring prior to December 31, 1997 for which either the initial public offering price or the highest bid price on the secondary market for the month thereafter is greater than \$6.00 per share. As a result of the Company's initial public offering at a price of \$6.50 per share in July 1997, this option vested in full. In June 1997, the Company granted Mr. Parkinson an option to purchase 30,000 shares of Common Stock at an exercise price of \$6.80 per share, which represented the fair market value of the Company's common stock on the date of grant.

Paul Voois has been the Company's Chief Executive Officer since January 1998. His annual base salary was increased from \$150,000 to \$190,000 effective October 20, 1997. Dr. Voois received a bonus of \$183,505 during fiscal 1998. This bonus included an amount of \$125,000 relating to Dr. Voois' contributions to the Company's development of its initial videophone product, the VC100. The remainder of Dr. Voois' bonus primarily consisted of profit sharing and a bonus for financial performance. In June 1997, Dr. Voois was granted an option to purchase 30,000 shares of the Company's common stock at a price of \$6.80 per share, which represented the fair market value of the Company's common stock on the date of grant. In addition, in October 1997, the Company's board of directors amended the vesting terms of an option for 25,000 shares of the Company's common stock previously granted to Dr. Voois to provide for full vesting within fiscal 1998. This acceleration of vesting was pursuant to a pre-existing provision of the option relating to the achievement of certain goals involving the development of the VC100.
